# Pakistan to enhance commercial relations with EU, member countries

Pakistan wishes to remain constructively engaged with the EU and its member states to enhance commercial relations in terms of protection and promotion of the social, economic, and other rights of the Pakistani people, Federal Minister for Commerce, Syed Naveed Qamar said.

He said that Pakistan and Poland continue to share positive relations in respect of bilateral trade, cooperation in education, parliamentary linkages, among others. Qamar said, Poland produces 80% of its energy through coal and can, therefore, provide assistance to Pakistan in this field since the country has huge reserves of coal, adding in March 2023, Pakistan would make its production double, keeping in view its importance in future in the field of energy.

Ambassador, Maciej Pisarski, conveyed his pleasure towards growing the trade volume between the two countries as Poland had become Pakistan's 7th largest trading partner in the EU and it's in FY- 2021-22 total bilateral trade reached around USD 506.6 million.

Data released by Pakistan Bureau of Statistics (PBS) showed that the sector recorded an increase of 80.46% in exports from July 2022 to November 2022. Furniture exports during this period rose to \$6.79 million. This was up compared to exports of just \$3.64 million during the same period last year. Exports of ornaments, gemstones also contributed to growth in exports.
